PARTICIPANTS NEEDED

FOR A RESEARCH STUDY EXPLORING HOW DIGITAL TOOLS COULD IMPROVE COMMUNITY HEALTHCARE ACCESS AND QUALITY FOR AUTISTIC PEOPLE IN AOTEAROA

IN THE WORKSHOPS, WE WILL:

- Share examples of a digital care framework
- Explore barriers to using community-based healthcare, and how a digital care framework could make things easier
- Discuss digital tools that would impact healthcare access and quality for Autistic people

WORKSHOP OUTCOMES WILL HELP US CO-DEVELOP THE DIGITAL CARE FRAMEWORK

REGISTER FOR A WORKSHOP

Wellington
(in-person)

Christchurch
(in-person or online)

WE WANT TO HEAR FROM

Adults (18 years or older) who:

- Identify as Autistic (self-identifying or formally diagnosed)
- Have experience with using community-based healthcare (e.g., GPs) in Aotearoa
